

Genetics in Neurodegenerative Disorders

Monday 12 August, 2019
2:00pm - 5:00pm
Murdoch Children's Research Institute
Cox/Walford Room, Level 5

This half-day event will bring you up-to-date with results and lessons from the Complex Neurological and Neurodegenerative Diseases Clinical Flagship, as well as insights from foremost experts.

Professor Glenda Halliday from the University of Sydney will be delivering the opening plenary.

Other speakers include Dr Dhamidhu Eratne (RMH), Prof Martin Delatycki (MCRI), Prof Melanie Bahlo (WEHI), Dr Aamira Huq (Austin Health), Prof Sam Berkovic AC (Austin Health) and Prof Steve Petrou (Florey).

A light lunch and afternoon tea will be served.

**Register now at <https://bit.ly/2Y3CJjz>
Limited tickets available.**

Prof Halliday is a career neuroscientist specialising in neurodegeneration. She has been a NHMRC Fellow since 1990, was appointed Professor of Medicine (2003) then of Neuroscience (2008), then NHMRC Senior Principal Research Fellow (2010) at the University of New South Wales, and now at the University of Sydney.

Prof Halliday is visiting Melbourne as an Expert-in-Residence with the Melbourne Genomics Health Alliance during August 2019.
